Planning Tips:

Keep a List:

Use the checklist to help you plan what flowers you will need for all the parts of your wedding.

Inquire About Floral Guidelines:

Check with your church, synagogue or hotel about decorating for your wedding and/or reception. Bring this information with you when you meet with your McNamara consultant.

When to Book the Flowers:

Once colors, the theme, your gown and your bridesmaid dresses are decided for your wedding, you are ready to make your floral choices. Ideally, it's a good idea to choose your wedding flowers 6-9 months before the big day.
